G E M I N I ...perfection in function and form

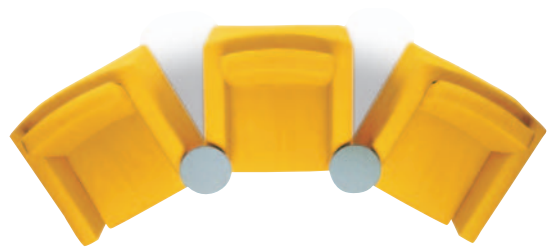

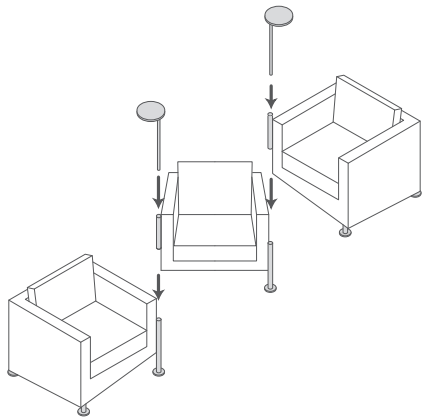

This variable chair and love seat collection can be used individually or combined in groups.

The sloping line of the base sets the visual accent, either to the left, the right, or even in a straight line. The universal column base can be fitted with a covering cap or extended to form a tablet with the addition of a clear glass, frosted glass, or granite plate.

GEMINI...versatile in design

The column base becomes a pivot point, connecting the individual seating elements to each other at any desired angle. Thus the furniture can be configured to fit the space and dimensions of any room. Whether twinned, as the name suggests, or as a single love seat, Gemini gives you a choice.

GEMINI...adding elegance

High quality upholstery, regal granite, sparkling glass, and classic metal accents endow this collection with a discreet charm, integrating it into the existing architecture and creating an elegant atmosphere.
